

CUSTOMIZED WELDING SOLUTIONS

Custom Welding Machines and Tooling, Welding Automation Systems and Robotic Integration.

Why integrate a Customized Welding Solution?

- Improved Quality
- Consistent Production Cycles
- Increased Profit
- Greater Productivity
- Better Repeatability
- Decreased Downtime
- Reduced Welding Costs
- Fewer Rejections

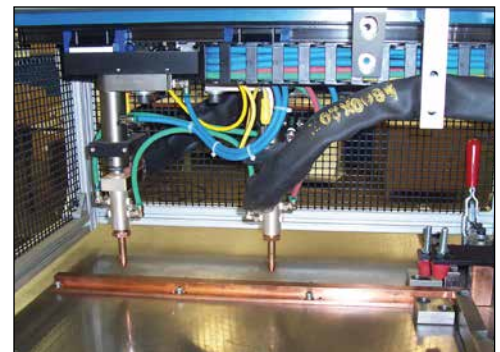

Customized Welding Solutions from Weld Systems Integrators (WSI) can be single or multi-gun Resistance, MIG, TIG or Plasma welders. They can be Manual, Partially, or Fully-Automated, for an infinite range of parts, shapes, and production requirements.

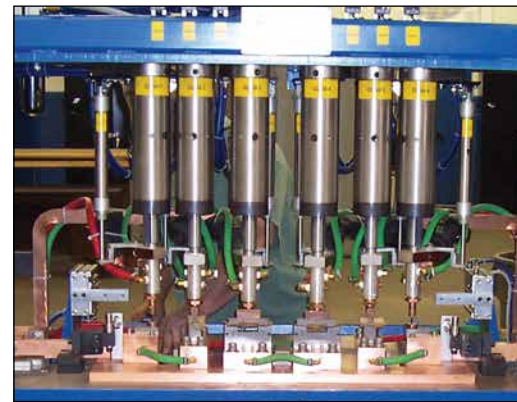

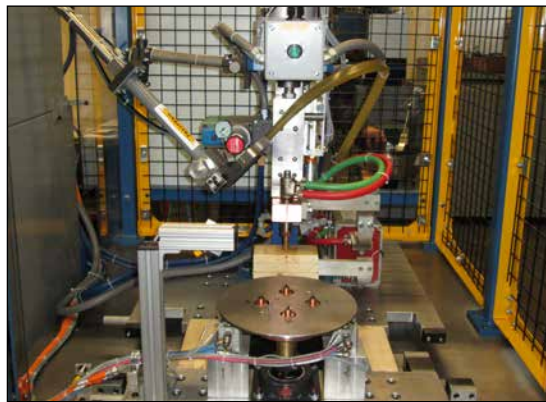

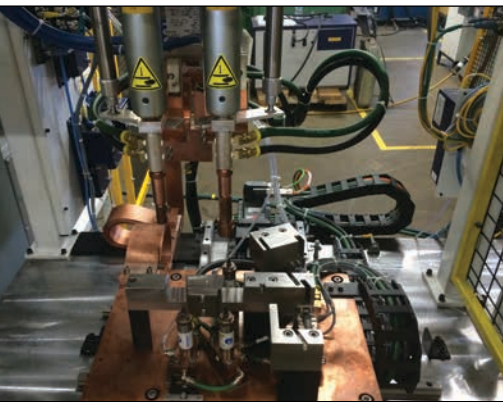

WSI's range of Customized Welding Solutions includes:

- Standard Machines with Custom Tooling
- Multi-Gun Welders
- Nut and Bolt Feeders
- Part Conveyors
- Custom Designed Welders (aka Hard Automation)
- Robotic Resistance / MIG / TIG / Plasma Welding Cells (aka Flexible Automation)
- Turntables
- Part Feeders
- Custom Weld Tooling

Weld Systems Integrators (WSI) | Resistance Welding. Solved.

Weld Systems Integrators is a manufacturer and distributor of resistance welding equipment and machinery, and integrator of welding automation.

WE MAKE GREAT WELDS!

Standard and Custom Equipment available from WSI includes:

- Press Type Spot Welders
- Projection Welders
- Rocker arm spot welders
- Seam Welders
- Bench and Micro Welders
- Portable Weld Guns

We also stock resistance welding accessories, parts and supplies from select affiliates and partners, including portable spot welding guns, consumables, controls, chillers, transformers and balancers. We support our resistance welding equipment with strong service, training, welding lab testing and contract engineering capabilities.

WSI is proud to be a Sustaining Member of the American Welding Society (AWS), the Resistance Welding Manufacturing Alliance (RWMA), WEMCO, and the Association of Welding Equipment Manufacturers.
